Customer Detail

The screenshot shows the Salesforce Setup interface for managing objects. The top navigation bar includes links for Home, Object Manager, and Help.

The main title is "Customer Detail".

The left sidebar, titled "Details", lists various configuration tabs:

- Fields & Relationships
- Page Layouts
- Lightning Record Pages
- Buttons, Links, and Actions
- Compact Layouts
- Field Sets
- Object Limits
- Record Types
- Related Lookup Filters
- Search Layouts
- List View Button Layout
- Restriction Rules
- Scoping Rules
- Object Access
- Triggers
- Flow Triggers
- Validation Rules
- Conditional Field Formatting

The right panel, also titled "Details", displays the following object settings:

Description	
API Name	Customer_Details__c
Custom	✓
Singular Label	Customer Detail
Plural Label	Customer Detail
Enable Reports	✓
Track Activities	
Track Field History	✓
Deployment Status	Deployed
Help Settings	Standard salesforce.com Help Window

At the bottom right of the main area are "Edit" and "Delete" buttons.

Custom Tabs

You can create new custom tabs to extend Salesforce functionality or to build new application functionality.

Custom Object tabs look and behave like the standard tabs provided with Salesforce. Web tabs allow you to embed external web applications and content within the Salesforce window. Visualforce tabs allow you to embed Visualforce pages. Lightning Component tabs allow you to add Lightning components to the navigation menu in Lightning Experience and the mobile app. Lightning Page tabs allow you to add Lightning Pages to Lightning Experience and the mobile app.

Custom Object Tabs

Lighting App

The screenshot shows the Salesforce Lightning Experience App Manager interface. The title bar reads "Lightning Experience App Manager" and the sub-header is "Clone Lightning App Garage Management Application".

The main content area is titled "App Options". It contains two main sections:

- Navigation and Form Factor**
 - * Navigation Style:
 - Standard navigation
 - Console navigation
 - * Supported Form Factors:
 - Desktop and phone
 - Desktop
 - Phone
- Setup and Personalization**
 - Setup Experience:
 - Setup (full set of Setup options)
 - Service Setup
 - Data Cloud Setup
 - App Personalization Settings
 - Disable end user personalization of nav items in this app
 - Disable temporary tabs for items outside of this app
 - Use Omni-Channel sidebar

At the bottom of the screen, there are navigation buttons: "Back", "Next", and "Quick Save".

Configure start

Flow Builder

Select Elements

Auto-Layout Run Debug View Tests Save As New Version Save Activate

Record-Triggered Flow Start

Object: Select an object Edit Trigger: A record is created Optimize for: Actions and Related Records Open Flow Trigger Explorer

End

Configure Start

Select Object

Select the object whose records trigger the flow when they're created, updated, or deleted.

* Object

Search objects...

Configure Trigger

Trigger the Flow When:

A record is created
 A record is updated
 A record is created or updated
 A record is deleted

Set Entry Conditions

Specify entry conditions to reduce the number of records that trigger the flow and the number of times the flow is executed to conserve your org's resources.

Condition Requirements

None

Optimize Flow

Optimize the Flow for:

Fast Field Updates
Update fields on the record that triggers the flow to run. This high-performance flow runs **before the record is saved** to the database.

Actions and Related Records
Update any record and perform flexible flow runs **after the record is saved**.

Is this flow making an external callout or connecting to an external system?

An asynchronous path is required for flows that involve external systems.

Add Asynchronous Path

Billing details and feedback Validation Rule

Define a validation rule by specifying an error condition and a corresponding error message. The error condition is written as a Boolean formula expression that returns true or false. When the formula expression returns true, the save will be aborted and the error message will be displayed. The user can correct the error and try again.

Validation Rule Edit

Save Save & New Cancel

Rule Name: rating_should_be_less_than_5

Active:

Description:

Quick Tips: Operators & Functions

Error Condition Formula

Example: Discount_Percent_c>0.30 More Examples... ! = Required Information

Display an error if Discount is more than 30%

If this formula expression is true, display the text defined in the Error Message area

NOT(REGEX(Rating_for_service__c , "[1-5]{1}"))

Insert Field Insert Operator Functions

All Function Categories ABS Insert Selected Function ABS(number)
Returns the absolute value of a number, a number without its sign

Help on this function

Check Syntax

Error Message

Example: Discount percent cannot exceed 30%
This message will appear when Error Condition formula is true

Error Message: rating should be from 1 to 5

This error message can either appear at the top of the page or below a specific field on the page

Error Location: Top of Page Field Rating for service

Save Save & New Cancel

Sales team

The screenshot shows the Salesforce Lightning Experience interface. At the top, there's a navigation bar with links for Home, Chatter, Campaigns, Leads, Accounts, Contacts, Opportunities, Forecasts, Contracts, Orders, Cases, Solutions, and a search bar. On the far right of the top bar are links for Switch to Lightning Experience, Thru and U, Setup, Help, and Sales.

The main content area is titled "Group Membership" and "Group: sales team". It displays "Group Information" for the "sales team" group, which has a "Label" of "sales team" and a "Group Name" of "sales_team". There's a note indicating "Required Information". Below this, there's a section for "Grant Access Using Hierarchies" with a checked checkbox. A "Description" field is present but empty. A "Search" bar allows searching for "Public Groups" and a "Find" button.

Below the group information, there are two sections: "Available Members" and "Selected Members". The "Available Members" section shows "0 select" and has an "Add" button. The "Selected Members" section shows "0 selected" and has a "Remove" button.

At the bottom of the main content area are "Save" and "Cancel" buttons. To the left of the main content area is a sidebar containing several sections:

- Salesforce Mobile Quick Start**: Home, Administer, Release Updates, Manage Users, Users (Mass Email Users, Roles, Permission Sets, Permission Set Groups, User Management Settings, Profiles, Public Groups, Queues, Login History, Identity Provider Event Log, Identity Verification History).

Creating the Role Hierarchy

The screenshot shows the Salesforce Administer section with the following navigation bar:

- Home
- Chatter
- Campaigns
- Leads
- Accounts
- Contacts
- Opportunities
- Forecasts
- Contracts
- Orders
- Cases
- Solutions
- +
-

Below the navigation bar, there is a search bar labeled "Quick Find / Search..." with a magnifying glass icon. To its right are links for "Help for this Page" and "Collapse All".

The main content area is titled "Creating the Role Hierarchy". It contains the following text: "You can build on the existing role hierarchy shown on this page. To insert a new role, click Add Role." Below this is a section titled "Your Organization's Role Hierarchy" with a "Show in tree view" dropdown.

The "Role Hierarchy" tree structure is as follows:

- Bharathiyar university
 - Add Role
 - CEO
 - Edit | Del | Assign
 - Add Role

On the left side, there is a sidebar with the following sections and links:

- Home**
